

The magnitude of BEC Fraud in real numbers.

Business Email Compromise is not a technical issue: it's a global financial hemorrhage. Official FBI (IC3) data and two recent cases proving that **no one is immune**.

FBI · IC3 2023

\$2.9B

USD billion · ~ \$2,900 million

BEC losses reported in 2023.

FBI · IC3 2024

\$2.77B

USD billion · ~ \$2,770 million

BEC losses reported in 2024.

CUMULATIVE 2022-2024 · U.S.

\$8.5B

USD billion · ~ \$8,500 million

Stolen from U.S. companies in just 3 years.

REACTIVE JUSTICE · POST-MORTEM

The law arrives **after the strike.** The clock starts at minute zero.

FBI RECOVERY ASSET TEAM (RAT) · 2024

66%

of fraudulent transfers were **frozen** by the RAT in 2024.

Non-negotiable condition: immediate reporting. After 72 hours, money sent to international accounts is typically lost.

► Justice does not prevent: it contains. The operational window is measured in hours.

CIVIL LIABILITY SHIFT

100%

of the loss is borne by the hacked company.

Studco Bldg. Sys. v. 1st Advantage Credit Union — courts release the bank from liability when the company failed to verify the destination account or ignored prior alarms.

The bank is no longer the last shield. **Due diligence is now a legal defense.**

X-RAY · 40 YEARS OF INTERNATIONAL TRADE

The financial door is **wide open**.

AUDITED SAMPLE

1,000

C-level & decision-maker contacts

Profiles audited

- ▶ Chief Financial Officers (CFO)
- ▶ Corporate buyers
- ▶ Logistics leaders
- ▶ Treasurers & controllers

Sectors · Geographies

Manufacturing · Logistics · Energy · Heavy metals · Retail · Financial services
Americas · Europe · Asia

SHOCK FINDING

75%

of the sample lacks basic email protection protocols: and .

If a top-tier commercial database is exposed, this vulnerability is a **systemic risk** across the entire global economy.

A massive risk. A **trivial** solution.

THE RISK

Four simultaneous fronts.

01

Legal litigation

100% of the loss on your balance sheet.

02

Reputation destruction

B2B trust eroded in hours.

03

Identity impersonation

Your domain weaponized against you.

04

Contract collapse

Clients walking away from exposure.

THE SOLUTION

Immediate technical closure.

DNS

Close DNS gaps: **SPF / DKIM / DMARC**

Server configuration: days, not years.

FIN

Financial intelligence to **audit invoices**

Destination account verification before payment.

DD

Documentary **B2B** due diligence

Human authentication on critical documents.

Companies invest millions in traditional cybersecurity, yet ignore the **human authentication layer** and basic email configuration. **That is corporate negligence.**

SURE FORENSICS · THE RESPONSE

The B2B standard for mitigation.

The SURE ecosystem acts as **the last line of defense** before banks release the funds. Forensic audit in minutes, AI-powered.

01

METADATA

Deep audit of headers and delivery chain.

SPF · DKIM · DMARC · source IP · server route · domain spoofing. The technical footprint the human eye cannot see.

02

CLAUSES

Document intelligence on contracts and invoices.

Detection of altered clauses, account-destination changes, divergences with contract history and anomalous B2B drafting patterns.

03

FORGERIES

AI detection of Deepfakes and synthetic documents.

AI-generated voice, video and imagery. Tampered seals, signatures and PDFs. The new fraud frontier demands algorithmic defense.

not days.
Before the bank releases the funds.

Due diligence, now automated and autonomous.
